

Ashley Engineering (Accrington) LLP

Stonebridge Mill, Stonebridge Lane, Oswaldtwistle, Accrington, Lancashire BB5 3HX

Manufacturers of High Pressure and Gravity Die Castings, Plastic Injection Mouldings, CNC Machining, Bead Blasting & Powder Coating. Welding & Fabrication.

We currently have a vacancy for a Foundry Labourer

The Role

Working as part of a small team you must be able to contribute to production targets, adopt improving working practices whilst working safely. Handling materials & equipment to make finished components made from castings in our foundry.

Skills Required.

Experience in an Industrial factory environment is preferred.

The successful candidate will be capable of reading and understanding both written and verbal instructions with good communication skills.

The Person

You must be adaptable and flexible in your approach, able to follow instructions and respond quickly to changing conditions.

Reliable, good timekeeper, honest and able to work unsupervised but part of a team.

Candidates must be conversant with H&S in the work place relevant to the role.

This is a 39 hour role with opportunity for overtime.

Applications in writing only, addressed to the HR Manager Mrs Andrea Pickering at the above address and clearly marked "Foundry Labourer".

Further information about our business and the range of services can be found on www.ashleyengineering.com

No telephone enquiries.

ONLY CANDIDATES WITH THE RELEVANT EXPERIENCE AND GOOD EMPLOYMENT HISTORY WITH REFERENCES TO SUPPORT THEIR APPLICATION WILL BE CONSIDERED FOR THE POSITION.
